

Excellent and  
personal education

Welcome to the  
German International  
School The Hague

# Familiar, warm, manageable and international

In the middle of the international district of The Hague, we welcome all pupils. Our school is one of the oldest German schools abroad in the world. We can proudly look back on more than 150 years of history, in which we have continuously developed according to the changing needs of students. Our claim to excellent education always remains our priority and is still today.

With our international location in The Hague, we incorporate different cultures and languages into our everyday lives. Well over 40 different nationalities are represented at our school, so the students experience a multicultural exchange every day, which promotes tolerant and respectful behavior.

Thanks to our family atmosphere and optimal school size, newcomers quickly feel comfortable and at home. This is the foundation for the joy of learning and prepares the way for a successful future.

From kindergarten  
to high school

# The right path for everyone

## Kindergarten and pre-school:

In a safe and secure atmosphere, our children learn to discover the world with all their senses. The development steps are accompanied and supported professionally.

## 1. - 4. Class - Primary school:

Developing: It is important to us that children learn from and with each other. For us, education means the holistic development of social, professional, and methodological competencies. A primary school is a place where children can feel comfortable and develop their potential.

## 5. - 9. Class - Secondary school I:

This is where children turn into young adults, and this is where we support them. In the 5th grade, the children deepen their knowledge of Dutch. From the 6th grade, French is taught as the second foreign language.

## 10. - 12. Class - Secondary school II:

A deeper general education and scientific work promote teamwork and independent learning, here we want to accompany and exploit the potential.

**We offer the following degrees:**

**Mittlerer Schulabschluss, Fachhochschulreife** (in cooperation with the German School in Brussels) and the **Deutsche Internationale Abitur (DIA)**. Both the Fachhochschulreife and the DIA are approved worldwide and offer the best future chances for your child.

School concept

# Building blocks for school success

## **Manageable school size, big impact:**

With a combination of optimal school size, professional learning concepts, and a personal school and learning atmosphere, we create an environment that makes learning enjoyable. Because we are convinced that children learn best where they are seen, heard, and perceived in their personality.

## **Individual needs:**

We offer every student the right school course.

## **Excellent education:**

We work on the basis of the German curriculum. In addition, we are part of the network of German schools abroad. We offer four languages so that our students can find their way around the international environment and are prepared for the requirements of the globalised world. Bilingual classes are held from the 8th grade onwards.

A photograph of two young girls in red basketball jerseys, numbers 6 and 9, laughing together on a gym floor. The girl on the left is holding a basketball. In the background, another player in a red jersey is visible. An orange diagonal overlay covers the left side of the image, containing the text.

Afternoon modules for  
friendship and fun in the  
community

# Versatile features

If the school bell has rung after the last hour, the DISDH is far from over. In the afternoon, students can choose from a wide range of activities.

Sport

Music

Theatre

Languages

Sciences, IT and Environment

Boredom does not exist, even during the holidays. The DISDH offers a varied holiday program.

Parents, teachers, and pupils form a special school community and are a major component of the German Community in The Hague. With various multilingual parenting services, we promote coexistence.

A photograph of two students in a classroom. A young woman with long blonde hair, wearing a yellow sweater, is in the foreground, looking up and to the right. Behind her, a young man with glasses and a light blue shirt is also looking in the same direction. They are standing in front of a whiteboard that has some diagrams and text on it. The woman is holding a green marker. The background shows a window with multiple panes. A large, semi-transparent purple triangle is overlaid on the left side of the image.

How you get to us

Contact and directions

# Everything under one roof

Children and adolescents from 2.5 to 18 years of age learn under one roof. Accompanied by our competent educational team, they experience smooth transitions with each new step into a further education level.
