## 5. School fees for self-payers or partial self-payers

A family is considered a self-payer or partial payer if they pay the school fees from their own funds without receiving direct or indirect reimbursement of the school fees from their employer or employer. The decisive factor is not to whom the school fees invoice is addressed, but whether the parents pay the school fees (in full or in part) from their own funds or whether these are reimbursed (in full or in part). If the school fees are partially reimbursed or support is granted, the discounts are calculated pro rata. You can find the relevant forms on our homepage.
